

# Sample Submissions

Cold Block Technologies Inc. would like to offer a complimentary evaluation of your samples. Please use the table on the following page to provide contact and sample information. We will run up to 10 samples free of charge.

## Submission Guidelines

Depending on your sample type, please submit adequate quantities. We suggest submitting a minimum of 20g per sample for Base metal analysis (small sample sizes), and a minimum of 300g for Precious metal analysis (large sample sizes).

We also recommend being specific when completing the **Elements of Interest** section of the **Sample Submission** form. As you may imagine, it takes dedication and time to develop a working method for both digestion and analysis.

To showcase the benefits of ColdBlock™ Digestion within a reasonable time, we ask for your support by focusing on your key elements of interest.

Using the guidelines above, please legibly complete the form (print preferably), and submit it along with your samples to the address below.

## Shipping Instructions

Please have the Sample Submission form, samples and MSDS sheets shipped to the below address.

ColdBlock Technologies Inc.  
Biolinc  
Cairns Research Complex, Brock University  
1812 Sir Isaac Brock Way  
St. Catharines, Ontario, L2S3A1
